Figma

PROJECTS

Movie App

🌐 https://git hub.com/adeyemi149/Movie_App

- Developed a movie application using Themovie API for data retrieval and firebase for authentication.
- Optimized web app performance through advanced technologies like Redux for state management and utilizing chakraUI with vanilla CSS for styling.
- Developed inituitive movie search, enabling users to seamlessly find and save movies for future viewing.

My Portfolio Website V1

🌐 <https://crownymy.vercel.app/>

- Developed a responsible and user-friendly website using technologies such as React, Next.js and ChakraUI.
- Created a portfolio page that showcase previous and upcoming projects.
- Utilized Vercel to deploy the website and ensure accessibility worldwide.

Workbench

📅 10/2023 Present

- Technologies used Next.js, Asp.Net Core Web API, MaterialUI
- Integrated mail functionality with Yahoo IMAP for seamless retrieval and SMTP for efficient sending of emails.
- Authentication in Workbench app with Asp.net Core Identity Core. Included forgot and reset password for user account recovery.
